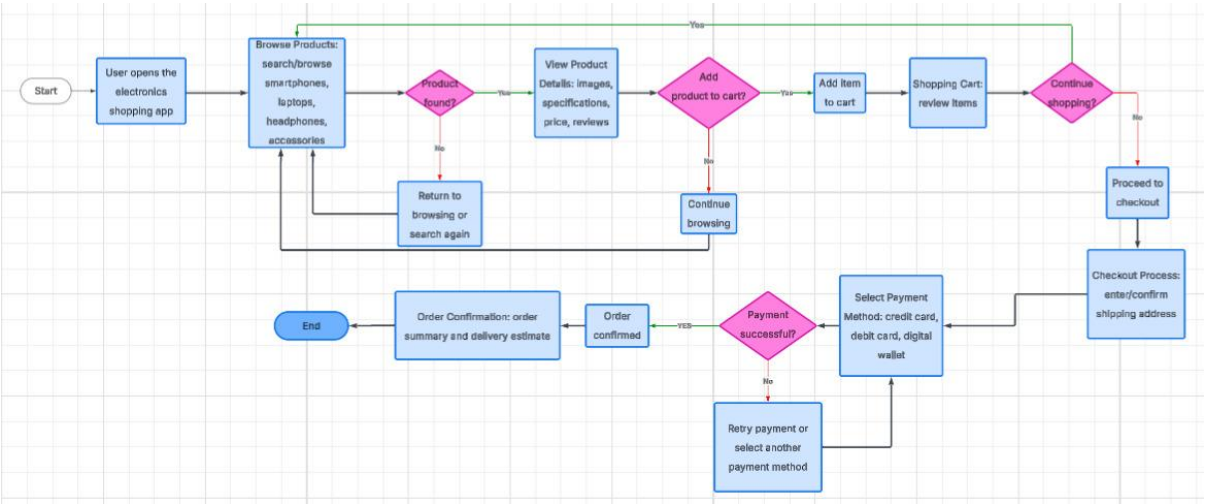
EXPERIMENT-5

Name: Naren S **Roll no:240701346**

Conduct task analysis for an app and document user flows. Create corresponding wireframes using Lucidchart.

Lucid Chart:

(Electronics shopping app and Chat Flowchart)



FlowChart Descriptive:

1. Start

The process begins when the user launches the electronics shopping application.

2. Browse Products

The user browses or searches for electronics products such as:

- Smartphones
- Laptops
- Headphones
- Accessories

3. Product Found Decision

The system checks whether a product matching the user's search is found.

- Yes: The user proceeds to view the product details.
- No: The user returns to browsing or performs another search.

4. View Product Details

The user views detailed information about the product, including:

- Product images
- Specifications
- Price
- Customer reviews

5. Add Product to Cart Decision

The user decides whether to add the product to their shopping cart.

- Yes: The product is added to the cart.
- No: The user continues browsing other products.

6. Shopping Cart Review

After adding an item, the user reviews the items in the shopping cart.

7. Continue Shopping Decision

The user chooses whether to continue shopping.

- Yes: The user returns to the product browsing stage.
- No: The user proceeds to checkout.

8. Checkout Process

During checkout, the user enters or confirms the shipping address.

9. Select Payment Method

The user selects a payment option, such as:

- Credit card
- Debit card
- Digital wallet

10. Payment Successful Decision

The system checks whether the payment is successful.

- Yes: The order is confirmed.
- No: The user retries payment or selects another payment method.

11. Order Confirmation

Once payment is successful, the system generates an order confirmation including:

- Order summary
- Estimated delivery time

12. End

The process ends after the order confirmation is displayed.
